SUMMERY

Seeking an opportunity in the field of software developing. Good knowledge of Reactjs, Nodejs, Expressjs, MongoDB. Ability to implement a full software development life cycle (SDLC) and analyze the performance of programs to correct deficiencies.

KEY SKILLS

Programming: Javascript

Framework or Library : Reactjs, Expressjs, Bootstrap 5, TailwindCSS, Mongoose

Runtime Environment : Nodejs

Database : MongoDB

State Management (Frontend) : Redux, Redux Toolkit

Version control: Git & GitHub

Additional & Soft : Problem solving, Communication, Object oriented, Postman, Full Stack

PROJECTS

E-COMMERCE SITE

- This is Shopping project with this project you can buy, rate and review the products. I also added the admin panel in this project with that admin can delete, edit, create the products. In this project i am used **ReactJS** as frontend **NodeJS** as backend **MongoDB** as database. In this project I added **JWT AUTHENTICATION & AUTHORIZATION**. I am using **Redux & Redux Toolkit** as state management. But in this project I didn't do much work with design .I used **Bootstrap 5**. Also i removed authorization for deployment because of cookie problem on the deploy. In payment method i used Strip Api package.

ELE-REPAIR-SHOP-SITE

- This is a repair shop project and also a fullstack project. The main aim of this project is to study about **Redux RTK Query with Redux Toolkit**. I learned much about that but not so much. I have good knowledge. In this project also user **jwt authentication**. This project mainly focused on **CRUD OPERATION**. This project also you can create, update, delete and get repair products. This project I used **AUTHORIZATION** as ADMIN, EDITOR, USER. Admin can do anything but others have limited things.

PERSONAL PORTFOLIO SITE

- This is my personal portfolio project. This project built with **Reactjs, TailwindCSS**. This project is a dynamic project you can change values without going to change in **JSX**. I have used **CONTEXT** for state management. I can use the **Redux toolkit**. The main focus of this project is to improve my skill.
