MOHAMED SHIYAS B

(MERN (REACT) Developer)

Address : Kerala, Palakkad, 678005, India   **Email** : shiyasshiyyu9961@gmail.com
GitHub : https://github.com/Shiyas9961/   **Phone** : +91 8547237188

Summery :

Seeking an opportunity in the field of software developing. Good knowledge of Reactjs, Nodejs, Expressjs, MongoDB. Ability to implement a full software development life cycle (SDLC) and analyze the performance of programs to correct deficiencies.

Key Skills :

Programming: Javascript

Framework or Library : Reactjs, Expressjs, Bootstrap 5, TailwindCSS, Mongoose

Runtime Environment : Nodejs

Database : MongoDB

State Management (Frontend) : Redux

Version control: Git & GitHub

Additional & Soft : Problem solving, Communication, Object oriented, Postman, Full Stack

----

Projects :

☑ **E-COMMERCE SITE**   **MERN Stack Project**   **Jan - 2024**

- This is Shopping project with this project you can buy, rate and review the products.I also added the admin panel in this project with that admin can delete, edit, create the products.In this project i am used **ReactJS** as frontend **NodeJS** as backend **MongoDB** as database. In this project I added **JWT AUTHENTICATION & AUTHORIZATION**. I am using **Redux** as state management. But in this project I didn't do much work with design .I used **Bootstrap 5**. Also i removed authorization for deployment because of cookie problem on the deploy.In payment method i used Strip Api package.

☑ **ELE-REPAIR-SHOP-SITE**   **MERN Stack Project**   **Dec - 2023**

- This is a repair shop project and also a fullstack project.The main aim of this project is to study about **Redux RTK Query.** I learned much about that but not so much. I have good knowledge.In this project also user **jwt authentication**. This project mainly focused on **CRUD OPERATION**.This project also you can create, update, delete and get repair products. This project I used **AUTHORIZATION** as ADMIN, EDITOR, USER. Admin can do anything but others have limited things.
